

For Immediate Release

# 3H Communication Systems is pleased to announce *High Performance Miniature Ceramic Filters*

***3H miniature ceramic filters offer high performance in small packages. Our filters provide low insertion loss and high attenuation in package heights starting at 0.08”.***

## Product Features

- Frequency Range: 200 MHz to 6000 MHz
- Type: BPF, BRF
- Bandwidths: 1.0 to 10% (available in 0.5, 1.0, 3.0 dB Bandwidths)
- Chebyshev Response (other responses are available)
- Available with Connectors and SMT
- Low profile packages start at <math><0.08\text{”}</math> ht.
- Available with High Power options
- Mil-Std-202 Conditions

3H Communication Systems, Inc. is a premier high value microwave and RF company supporting the military and commercial markets with RF Filters, Duplexers/Diplexers, Multiplexers, Multi-Function Assemblies, RF Front-End Solutions. The high degree of engineering and technical capability focused on innovation with decades of expertise for low cost and high quality RF products allows 3H to offer premium microwave and RF filter products and solutions at discounted prices. 3H understands that highest quality is achieved when quality is designed in and potential problems are designed out. 3H works with customers to achieve optimal solutions for both performance and price. Highest achievable quality does not have to be expensive.
