

3H's New 600 MHz Band Duplexer

Tx and Rx Band provide >110 dB co-channel isolation while maintaining <1.0 dB Passbands insertion loss.

Specifications

- Frequency Bands: Tx: 640 to 650 MHz, Rx: 661 to 671 MHz
- Tx to Rx Rejection: >110 dB @ 661 to 671 MHz
- Rx to Tx Rejection: >100 dB @ 640 to 650 MHz
- Tx/Rx Passband Insertion Loss: <1.0 dB
- Average Power Handling: Up to 200 Watts
- Size: 9.3" x 8.2" x 3.0"

Other power options, rejection parameters, LTE Bands and custom frequency are available. Please contact 3H Communication Systems for additional information.

3H Communication Systems, Inc. is a premier high value microwave and RF company supporting the military and commercial markets with RF filters, duplexers/diplexers, multiplexers, multi-function assemblies and RF front-end solutions. The high degree of engineering and technical capability focused on innovation with decades of expertise for high quality RF products allows 3H to offer premium microwave & RF products at discounted prices. 3H understands that highest quality is achieved when quality is designed in and potential problems are designed out. 3H works with customers to achieve optimal solutions for both performance and price. Highest achievable quality does not have to be expensive.
